Erosion, Sedimentation & Storm-Water Run-off ASSESSMENT FORM

PROPERTY LOCATION: S.C.T.M. #: _____

THE FOLLOWING ACTIONS MAY REQUIRE THE SUBMISSION OF A STORM-WATER, GRADING, DRAINAGE AND EROSION CONTROL PLAN CERTIFIED BY A DESIGN PROFESSIONAL IN THE STATE OF NEW YORK.

District _____ Section _____ Block _____ Lot _____

SCOPE OF WORK - PROPOSED CONSTRUCTION	ITEM # / WORK ASSESSMENT	Yes	No
<p>a. What is the Total Area of the Project Parcels? (Include Total Area of all Parcels located within the Scope of Work for Proposed Construction) _____ (S.F. / Acres)</p> <p>b. What is the Total Area of Land Clearing and/or Ground Disturbance for the proposed construction activity? _____ (S.F. / Acres)</p>	<p>1 Will this Project Retain All Storm-Water Run-Off Generated by a Two (2") Inch Rainfall on Site? (This item will include all run-off created by site clearing and/or construction activities as well as all Site Improvements and the permanent creation of impervious surfaces.)</p>	<p>— <input type="checkbox"/></p>	
<p>PROVIDE BRIEF PROJECT DESCRIPTION (Provide Additional Pages as Needed)</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p> <p>_____</p>	<p>2 Does the Site Plan and/or Survey Show All Proposed Drainage Structures Indicating Size & Location? This Item shall include all Proposed Grade Changes and Slopes Controlling Surface Water Flow.</p>	<p>— <input type="checkbox"/></p>	
<p>General DEC SWPPP Requirements: Submission of a SWPPP is required for all Construction activities involving soil disturbances of one (1) or more acres; including disturbances of less than one acre that are part of a larger common plan that will ultimately disturb one or more acres of land; including construction activities involving soil disturbances of less than one (1) acre where the DEC has determined that a SPDES permit is required for storm water discharges. (SWPPP's Shall meet the Minimum Requirements of the SPDES General Permit for Storm Water Discharges from Construction activity - Permit No. GP-0-10-001.)</p> <p>1. The SWPPP shall be prepared prior to the submittal of the NOI. The NOI shall be submitted to the Department prior to the commencement of construction activity.</p> <p>2. The SWPPP shall describe the erosion and sediment control practices and where required, post-construction storm water management practices that will be used and/or constructed to reduce the pollutants in storm water discharges and to assure compliance with the terms and conditions of this permit. In addition, the SWPPP shall identify potential sources of pollution which may reasonably be expected to affect the quality of storm water discharges.</p> <p>3. All SWPPPs that require the post-construction storm water management practice component shall be prepared by a qualified Design Professional Licensed in New York that is knowledgeable in the principles and practices of Storm Water Management.</p>	<p>3 Does the Site Plan and/or Survey describe the erosion and sediment control practices that will be used to control site erosion and storm water discharges. This item must be maintained throughout the Entire Construction Period.</p>	<p>— <input type="checkbox"/></p>	
	<p>4 Will this Project Require any Land Filling, Grading or Excavation where there is a change to the Natural Existing Grade Involving more than 200 Cubic Yards of Material within any Parcel?</p>	<p><input type="checkbox"/> —</p>	
	<p>5 Will this Application Require Land Disturbing Activities Encompassing an Area in Excess of Five Thousand (5,000 S.F.) Square Feet of Ground Surface?</p>	<p><input type="checkbox"/> —</p>	
	<p>6 Is there a Natural Water Course Running through the Site? Is this Project within the Trustees jurisdiction or within One Hundred (100') feet of a Wetland or Beach?</p>	<p><input type="checkbox"/> —</p>	
	<p>7 Will there be Site preparation on Existing Grade Slopes which Exceed Fifteen (15) feet of Vertical Rise to One Hundred (100') of Horizontal Distance?</p>	<p><input type="checkbox"/> —</p>	
	<p>8 Will Driveways, Parking Areas or other Impervious Surfaces be Sloped to Direct Storm-Water Run-Off into and/or in the direction of a Town right-of-way?</p>	<p><input type="checkbox"/> —</p>	
	<p>9 Will this Project Require the Placement of Material, Removal of Vegetation and/or the Construction of any Item Within the Town Right-of-Way or Road Shoulder Area? (This item will NOT Include the Installation of Driveway Aprons.)</p>	<p><input type="checkbox"/> —</p>	

NOTE: If Any Answer to Questions One through Nine is Answered with a Check Mark in a Box and the construction site disturbance is between 5,000 S.F. & 1 Acre in area, a Storm-Water, Grading, Drainage & Erosion Control Plan is Required by the Town of Southold and Must be Submitted for Review Prior to Issuance of Any Building Permit. (NOTE: A Check Mark (✓) and/or Answer for each Question is Required for a Complete Application)

STATE OF NEW YORK,
COUNTY OF SS

That I, being duly sworn, deposes and says that he/she is the applicant for Permit,
(Name of individual signing Document)

And that he/she is the
(Owner, Contractor, Agent, Corporate Officer, etc.)

Owner and/or representative of the Owner or Owners, and is duly authorized to perform or have performed the said work and to make and file this application; that all statements contained in this application are true to the best of his knowledge and belief; and that the work will be performed in the manner set forth in the application filed herewith.

Sworn to before me this;
